Customised health notification

Update details from Home

The image shows a mobile app interface for updating health details. At the top, there is a notification bar with a green folder icon and the text "Text Only Notification Bar" and "You can choose to only display text or your notification may be used to trigger an action, update or notification." Below this is a green form with the following fields: "Age:" with a text input, "Sex:" with a dropdown menu showing "Male", "Weight:" with a text input, and "Race:" with a text input. At the bottom of the form is a "Submit" button. The app is framed by a black border with a camera icon on the left and a microphone icon on the right.

view reports while they also being tracked by software in backend

a Kiosk based simplistic system. which also illiterate can use and can take medical records from kiosk only
